

Functional Simulated Technology Tasks - Online Shopping

Details of the task

I have written out the details of the task so you can either review it here or you can do it on the site without having to figure out the correct answers, as a client would.

HOME CONDITIONS: Table/desk, computer with internet access and already signed on

1. Case and School Dress Code
2. Credit card cutout (American Express card)
3. Present client with a manila envelope containing above items.
4. Patient seated at table/desk with computer opened to an internet browser

HOME INSTRUCTIONS:

“This next task involves online shopping. Everything you need in order to complete the task is provided and is in front of you. Read through the information and complete the task. Do you know what you are to do? Do you have everything that you need?” [Wait for response]

What to expect:

1. Client must review the case to determine what details need to be considered.
2. A budget of \$150, including shipping.
3. The person is female, size 8 clothes, size 6 socks.
4. She does not need shoes.
5. She needs a total of three outfits.
6. Must include: A jacket or sweater, socks, at least one pair of pants, at least one skirt or jumper.
7. Must follow details of school dress code.
8. One item must be proper school color plaid - Red/Navy/White.
9. Access shopping website <http://www.otiadl.net/Shopping/>
10. There are links on the page that do not work on purpose (Boy's). This is based on the assumption that the therapist will be cueing the person away from these links because they do not help solve the case.
11. For each item they must chose the quantity, color, and size.
12. Once all items are in cart, choose place order.
13. Enter shipping address:
